History, Overview and Mission

CCI is located in Albemarle, N.C. just 30 miles east of Charlotte. Our reputation is for having the finest quality pulley design and construction in the business. We are proud to manufacture one of the heaviest CEMA grade pulleys in the industry. And our aggressive approach to building quality products is fully supported by fast, reliable service.

At CCI, our mission is to provide a quality pulley in a delivery cycle consistent with the needs of each particular customer, while maintaining an enjoyable, challenging and stable work atmosphere for our valued employees.
