

# CCI

## Conveyor Pulleys

The **CCI** competitive advantage is based on two important principles, solid construction and quick delivery. Our mission is to provide a pulley of unmatched quality in a delivery cycle consistent with the needs of our customers, no matter how short that cycle may be.

We strive to maintain an enjoyable, challenging and stable work atmosphere for our valued employees. The pride and confidence of our people is the driving force behind **CCI** being the supplier of choice to many industries in the global market.

- Engineering
- Surveying
- Inventory Management
- Overnight Delivery Service
- Failure Analysis
- Project Assemblies
- CAD and Solid Model Drawing
- Finite Element Analysis

**CCI exceeds industry standards for quality and service.**
