

CCI

Conveyor Pulleys

A Division of *Martin* Sprocket & Gear, Inc.

CCI Has introduced another exciting product - VC Lagg. Vulcanized Ceramic Lagging. We stock raw materials sufficient to vulcanize any size pulley with ceramic Lagging.

Our Product Features high tensile SBR rubber, elongated tiles with rounded corners, and water relief grooves for proper escape of liquids between the pulley and the belt.

CCI does it again! For those harsh demands on your drive applications. A Vulcanized Ceramic Lagging - CCI's VC-Lagg

The **CCI** VC-Lagg

Another industry first Vulcanized Ceramic Lagging!

60 Durometer rubber with high tensile strength
